Thread: Garry: How to buy from LAL during downtime

Arsenic - November 17, 2016, 3:14 pm

I think it was BigDickBandit420 who gave me the idea. Thanks Bandit!
My conversation with Garry:

Whats up Garry,

Someone on the forums gave me the idea of buying a product on amazon and in the comments saying to switch it with a product of equal or lesser value in order to get the one I want, is this possible?

Say I buy Nude for gay woman off of amazon for 47.99. Could you send me DP at 47.97 instead?

Best,
Arsenic
Garry:
Quote:Hello,

Sure, as long as they are the same value we can do that, Just email me here as soon as you make the order, so I can make sure shipping does not make a mistake.

I'm not sure what the situation would be if the prices were not the same but its worth shooting him an email. Just throwing this out there as a solution.

Someone said he had success with western union,if you are in US you should be able to do a money order.

BigDickBandit420 - December 7, 2016, 3:23 am

I just placed an order with him today. I paid through an app on my phone - no western union or mailing checks.

I emailed him at garry@liquidalchemy.com with what I would've liked to buy and my zip code. He told me the price for the items, shipping and how to send the payment.

Arsenic - December 8, 2016, 5:12 am

I think he needs a brand new site honestly. Something modern like a wordpress with a shopping cart, a way to do email blasts (if, ya know, something like this happens...) so he can communicate deals and etc. Ha maybe I should make him one. I don't know what the deal is with credit card vendors but as far as I know he could accept paypal which has an option to transfer funds to bank accounts,

so... Not really sure why he hasn't officially reached out anywhere.

EDIT:

Screw it, the dude needs help. I emailed him about making him a brand new website. Let's see if the fish bites. 4 months is just beyond ridiculous...

jb20 - December 8, 2016, 5:27 am

His paypal account got banned. Happens when you get a lot of money fast or when you transfer a lot from paypal to bank.

Oh, good to know... Although to me it seems a way around that would be to open a different account. If they balk at using the same card then, open a new card?

(12-08-2016 12:35 AM)BigDickBandit420 Wrote: [](#)He should accept bitcoin.

So you're from THAT side of the internet, eh?

Transfer fees are a pain in the ass though. Unless you've got an operation of your own where you're making BTC ;) I wonder how many, if any, people would pay with BTC on a pheromone site... the answer might very well surprise me.

dabu11et - December 9, 2016, 2:41 am

Do you think he will have this fixed by Christmas?

Spars - December 9, 2016, 2:18 pm

Christmas is two weeks away (already). I really wouldn't count on it, at this rate. Maybe sometime in the New Year, is my guess.

RoadRacer - December 9, 2016, 2:23 pm

Recently bought BW and MaxT by ordering 2 x Nude Transgendered off Amazon (It came out to about the same price -- just 20 cents over).

Email Garry first to ask of course.

Honestly I just ordered through email, and transferred to a diff PayPal acct, funny enough my DP was to arrive tomorrow so I could do testing on Monday, but I for some reason checked the shipping today and it said delivered ^_^.

in short, I asked him that I don't see DP on Amazon, he asked if thats all I wanted and then gave me a address to sent my Paypal payment and gave address in email...

We lost our merchant provider on the 26th of September and no longer have the ability to take payments. We are dead in the water until we can find a new merchant provider. We are working on it night and day.

At this time we have some products on Amazon. Other than that we can only take Western Union, Bitcoin, and Money Orders. I can also take a few order through my son's PayPal account."

Even though they have troubles with their systems, Garry is VERY helpful to say it mildly. He made everything work and have shipped my package, even though I asked for a shipping method which cause more troubles for his team, and he did it all with a smile. I am very impressed !

Hey folks, it appears that Garry has resolved his merchant processor issue, as the shipping cart on his site is now working again.

polarvoid - January 24, 2017, 2:15 pm

Its sitting at "Awaiting Merchant Approval" for me - No progress to actually making a payment.

mark-in-dallas - January 24, 2017, 2:31 pm

I'm guessing that may be a requirement of the Merchant Processor, in that all transactions have to be reviewed and manually approved. I don't know for sure but that would be my guess. Wait till this afternoon and see you can complete the transaction

Send him a couple of emails since then but he hasn't responded. It's unlike him since he normally respond super - fast.

I sent him an email asking him what his next favourite product in his range was since I'm interested

in making another LAL purchase. (He'd sent one stating that BW was his current money of choice). Haven't had a reply and it's been over a week now. I don't know if other people are getting through atm but I'm sure he'll reply eventually, it took him a while to reply to my previous message but he did

As far as I know his main focus is to get a payment processor for his own site.

You can email his to ask for options in the meantime. I use Western Union. There is a fee, but if you skip a couple of Starbucks coffees, you'll have it back.

He gets a lot of mail. I always put ORDER in the subject line so that it stands out. Always works.

I just ordered and received NAG for Garry. I used venmo for my order which was very simple probably easier to use then paypal. Just email Gary with what you want and he'll send you a total with instructions.

Tip - sign up for venmo on your computer and not via their app on your phone. The app requires you send invites to your contacts. You can kinda skip this on their website.

I need to update about the package Garry sent me! Seriously, WOW!

First of all, the sample vials are, like, 3x bigger than they were years ago when I got them!

Second, the Hypnotica Social bottle looks VERY good/high quality and came in a velvet pouch.

Overall, I'm VERY pleased with my purchase. I definitely want to buy Bad Wolf now just to see what the bottle looks like if nothing else :o

Anyhow, good stuff. Gary is a class act.

I got a response in a day, and took the Amazon Way!

Placed and order for AV and Nude to equal about 2 dollars more than what 2 bottles of BAD WOLF and 3 sticks of MAX T-50 would cost with shipping.

As for the SCENT PACKAGE ... I sure can. I have Wolf in spray. When it gets here, I'll spray Wolf on one hand and BW in Wolf's scent on the other, and see if I note a difference. IF I remember!

Tried sending money using western union online but stupid website couldn't verify me. So, before walking into a western union outlet, I gave amazon a try. For my surprise, it let me order from amazon USA website to an international address.

Niceguy - March 17, 2018, 3:12 am

I made 2 orders yesterday wolf 10 ml and max t150 as my first lal ever orders.
I paid using venmo and it was easy to use

LastDragon - March 26, 2018, 9:50 pm

I just placed my first LAL order as well. I emailed Garry and payed through Venmo. Quick responses and transaction. Garry said my order would ship today.

Niceguy - April 2, 2018, 8:52 pm

venmo is great fast easy transaction.

the thing with venmo they are alot of fraud charges that I read about and I just got hit with a whole bunch of fraud charges on my card. thank God none of the payments went through and I was able take care of the situation with a bank rep.

I never had fraud charges on my card until I started using venmo which was 2 weeks ago.

so from now on I'm not using my card with venmo anymore I'll maybe buy a gift card and use that instead.

so maybe I'm the only one here but venmo has alot of negative reviews about fraud and today my card was hit with fraud so everyone please be careful

Mischief - April 11, 2018, 10:42 pm

When I purchased my bottle of Voodoo, I coordinate with Garry and arranged a Western Union wire transfer. I felt that was the safest way to make sure a transaction went through.

Sully - April 24, 2018, 12:09 am

Two years for Garry with this payment issue. I hope his business is still going well since LAL has amazing scents and mones that work really well.

Sgt. Majorproblem - April 30, 2018, 9:16 am

This payment issue is pretty annoying...Why is it not possible to choose one from dozens of payment processors? He should hire a marketing expert, a web developer or someone who helps to sort out the payment issue, develop the website (dated) and market the Pheromones. The product is very good, should be able to sell 10x more....

Snowden - May 2, 2018, 2:39 pm

Have to agree, I for one would be happy to cop any extra charges if he could get an online option, I have been meaning to buy decent order for months, getting down to western union branch is harder than you think when your working your ass off everyday and Australia doesn't have venmo option or what ever it's called, well I can't transfer, if anyone else can I'm keen to know, IP block help?

You should be able to notice results at 10-20 mcg. I prefer between 50 and 100 mcg for my ideal dose.

LAL has three different concentrations for sale (<http://www.pheromonesperfumeandcologne.com/Androstadienone.html>) :

4 mcg's per drop, 10 mcg's per drop, and 20 mcg's per drop. I would go with the highest concentration (2 mcg's/drop).

I was thinking the same shit but in LAL's defense, understand that Garry has a huge database of affiliates that bring in the sales for him. Once he changes payment processors he loses that database and a substantial portion of his income. I agree with what you said, hire an expert that can migrate the database and attach it to a new payment processor.

That being said 2 years is a long time, hopefully he finds a solution quick.

Yes, I placed an order just last week and received it promptly.

His email is garry@liquidalchemy.com

Put "order" in the subject line, and in the email let him know what products you want.

He will reply to you with the price and the method of payment. (He typically responds within 2 business days, usually sooner)

I was able to order with Garry using the cryptocurrency Litecoin, it was fast.

All you have to give him is your Name, address, products you want, shipping method from the drop-down on his website, and the cryptocurrency you want to use (ETH, BTC or LTC)

About time. I was wondering why didn't he do it earlier.

WereWolf666 - June 13, 2018, 2:46 pm

He could write on his website that's it's possible to order that way.

But I don't think many people have cryptocurrency to begin with because the government has made it particularly annoying to exchange from fiat to crypto.

Maybe he doesn't want to deal with a lot of emails also, as it must be a pain to answer all of them.

Just for my order it took me 4 emails, I guess with some people it could take 10 emails.

If you have 10 people ordering that 50 emails on average, if you have 100 that's 500.

Kohlloe - June 13, 2018, 7:47 pm

Ohhh, I didn't know he accepts crypto.

Just ordered via amazon.com (and sent him an email about the products I wanted)

I hope he will implent a crypto payment gateway on his website soon!

Yes, placing orders with Garry is easy peasy.

Register at coinbase.com and buy crypto with your credit card. Send an email to Garry with what you want and tell him you'll pay with bitcoin, ethereum or whatever you buy. He'll send you a code to his wallet so copy paste that and use the wire function at coinbase. It's easy.

After a lot of reading here and some talking with friends I wanted to make a couple of purchases from LAL. Of course, just for giggles and grins, I attempted to place an order TWICE using the online cart system to no avail. Sort of stymies me why you would keep something like a non-working product purchase system up if you're still in business.

I shot them an email expressing what products I wanted to purchase and no reply. Doesn't give me much hope in spite of how well their products work. Pretty disappointing if he's still actually in business and selling product. I also noticed the thread is more than two years old - Why isn't his site's cart system not working by now?

Super strange. Finally got in touch with Garry and emails flowed pretty well. Must be the way the web flows! Well, got the info to place an order.

Just wished he had a order processor that would allow web orders like the other sites.

I agree, as many others likely would as well, that it would be great if he had a working order processor, but I'm glad to hear you finally got in touch with him.

Note: I didn't get a tracking number with this recent order or my first one, but I did receive my first without any issues.

Just curious; what did you order?

I can only imagine what business he might be missing out on if somebody gets thoroughly disgusted and ventures elsewhere. Instead of leaving a defective order system on the site Garry should invest some time to make provide a contact form to inquire about placing orders. Leaving things the way it is just doesn't make business sense and if it wasn't for the fact I'm a member here I would have gone off in search of alternate product.

I'll keep that in mind as Garry said he'd confirm receipt of the order and its shipping status.

I decided to order a few products to have on hand after reading positives from other members here, including Bad Wolf, Nude Alpha and Aqua Vitae.

Hey Guys,

Just so that everyone knows, I also made the payment and waiting for the confirmation from him. Reading the above email that he doesn't reply on weekend was a relief. As far as I know, I trust this guy.

I will update everyone as soon as I get any reply from him. I think he can get a crypto checkout or so. After the confirmation, I will share with him.

I am as nervous and anxious as other guys. Just being patient is the key. For the record, it took a day for him to reply to my email. He do surely reply though.

Garry shipped Bad Wolf along with a sample of NUDE a week ago, after paying in Bitcoins.

kalpan56, I am also curious what did you order?

Johnny Fever, Very nice choice!

Johnny Fever - March 10, 2019, 9:33 pm

Gotta give props to everyone here for the choices, as their positive experiences is what I'm using for guidance. Already started noticing things that to the solo product tests suggested by the group so I figured while I've got a few extra bucks I'd stock up.

Got my order today

Ordered 3-6-2018 in the evening

Shipped 3-7-2018

Arrived 3-11-2018 from HI to IN

Yes, nice choices, Johnny, though I've not used AV.

I got Bad Wolf, Nude Alpha Gel and Voodoo. I've used NAG and BW in the past, as well as a sample of Voodoo. I've found these three to go pretty well together.

I've got some XSP83 and True Love on the way, too. I'm wanting to see what they will add to the mix.

Exact same timeframe to the tee for me, except mine arrived in Chicago. I'm sure our packages were travel buddies during the trip to the midwest. Seriously very impressed with how quickly I received this.

I ordered just NAG and received a sample of SXD-9. Threw on NAG right away since I was going out for drinks and it's a beast... More to follow on the NAG thread as I test it out.

I got a reply from Garry.

Yeah, once you get in contact and manage to get the payment processed, the turnaround is great. I ordered from PT and did express shipping without realizing they were based in Bartlett, IL...Not too far from you. I got the package in a couple days. Next time I'll do flatrate with them, although the estimated shipping times seem to be a little long compared to how fast I received my order from Garry in HI:

From PT website:

Flat Rate (5-7 days):Â $3.12, Priority mail (Estimated 3-5 days):Â $7.12, Express mail (1-2 days):Â $25.12 - Estimate forÂ IL.

Maybe actual shipping times would be shorter for us.

Definitely good stuff, NAG. What dosages are you using? I use to do 1-3 full pumps, but this time

of SxD-9. Threw on NAG right away since I was going out for drinks and it's a beast... More to follow on the NAG thread as I test it out.

Definitely good stuff, NAG. What dosages are you using? I use to do 1-3 full pumps, but this time around I might start off trying microdoses to try and extend the amount of time I can use it. Not cheap stuff...

First time using NAG, so I just pumped a small amount. Prob 1/2 or 1/3 of a full pump I'm guesstimating. For me, less is more so I'll prob stay around this dosage if I continue to see positive results.

[/quote] i have been using NAG since oct order myself a new bottle and a 2 bottle of TLG i havent put any of my results up in a the new forums yet still doing testing

I'm assuming you were able to order that fast as you have one of the alternate payment platforms Garry uses, yes? I only have Paypal and since I don't want to sign up for another payment processor I had to order via money order.

He should have my payment today, so I'm curious how long things will take.

Yes, I paid via Venmo and the transaction went through in about an hour. I signed up for Venmo for my first order, and the sign up process was quick and easy. I'm not sure how it would work with the money order as far as if he would cash it first or not.

But once he does get the payment, however he decides to, I'd imagine he would ship same day if it's early enough. If not, then my guess is he'd probably ship the next business day.

You can always email him for details.

Hi Guys, I have paid and got a confirmation but have not received any tracking number yet . Package hasn't arrived yet. Hopefully, the order get delivered.

Also, Garry is not replying to my any email for tracking number. I tried 3 times. I am sitting tight for the delivery. Hopefully, it comes through.

hashishattraction - March 21, 2019, 10:51 am

kalpan56 I didn't get a tracking number too, but trust me it's on the way.

Don't worry Boss, I made an order weekend before last (03/10/2019). Asked for and got tracking number on the 13th. My Order was on the my door step Monday (03/18/2013). I'm going to order again real soon.

Johnny Fever - March 22, 2019, 12:00 am

I don't think I got any tracking number but things got here quite quickly from Garry. I'm pretty happy with the turn-around and now I'm waiting to get over a bit of the flu before I take things out for a spin.

stefdude - April 17, 2019, 8:08 am

I haven't ordered from LAL since those problems. I can see on the bottom of the site that it accepts visa and mastercard. Why is venmo necessary then? I wouldn't risk loading my international card because I have limitations on withdrawing the money back.

Edit: Yeah I got it now. The site should have been updated to note the problem. Venmo is not available in my country. I'm emailing Garry, in the meantime if anyone knows bank information of LAL or any other way to pay please PM me.

static3600 - April 26, 2019, 8:13 pm

Trying to place an order today but paypal is not going thru. I emailed Garry already but no response. Hoping to get the order before Thursday

WereWolf666 - April 26, 2019, 8:31 pm

Unless he (Garry) solved his problem with Paypal you won't be able to pay using Paypal, wait for his reply from emails, you have to use alternative payment system like said above. Last time I ordered something I used Bitcoin/litecoin to pay, it's probably easier with Venmo.
