Actually the prices seem pretty reasonable. The Swoon 6.1 ml tester is only a few bucks more than the price for the 30ml divided proportionately

$(\text{\$}68 / 30\text{ml}) * 6.1\text{ml} = \text{\$}13.80$ for 6.1ml
tester price = $\text{\$}16.30$ for 6.1ml

I'd say that's a good deal.

Does anyone know if they'll send unscented samples? There's no place to specify the scent, so I assume you get the default scent?

LAL Pheromones do come scented (original product scent) since every LAL blend has its own unique scent. As far as you don't choose a different scent which you can only get as custom order when you order directly from Gary.

For the other blends like PheromoneXS, Alpha Dreams, etc. click on the tab 'Additional Information' for detailed information if they come scented or unscented. Most of them come unscented.

If you are not sure just email Paulius, he's pretty quick in answering your questions.

BTW I disagree with OCD as I don't find the prices expensive taking into consideration Paulius has to buy sample bottles and taking the time to fill them
All in all Paulius offers an excellent service.

Just my 2 cent
