Hey there,

So I have an exam in an hour in a half. I'm wondering if you think it's a good idea to wear any mones? I'm thinking maybe some Wolf or some Corpo for the calm down effect it gives me, but I'm not sure if it might negatively impact on my concentration or memory? Any ideas/advice?

I wore a spray of Corpo. This is the first time I've worn it in summer conditions so this is probably the best it has ever diffused on me.

On the plus side, I had some insane Corpo hits. I don't often get those doggy eyes often but had about 4-5 in a row walking and waiting for my exam. Poor girl sat next to me kept fidgeting with herself (hands between legs) and ended up removing half her clothing and shoes.

On the down side, I don't know if it was the hot weather or the mones but I could not concentrate at all. I could not remember things that I could remember consistently before I went into the exam. Pretty certain I'll be redoing it at a later date.

So to summarise, Corpo is great for attracting the ladies in the summer. Its not too helpful in an exam.
